Computational Physics - Linux and Command Line skill assessment answers

Samuel Barton

January 25, 2017

Below are the commands used to solve each of the problems in the exercise.

1. n/a
2. n/a
3. n/a
4. pwd
5. cd physics
6. mkdir proj1
7. vim testing.txt
8. n/a
9. ls
10. grep Hello physics/*
11. sudo apt-get install vim
12. cp test.txt
13. mv testing.txt ..
14. rm testing.txt
15. $((2 + 2))
16. ls -l
17. top
18. clear
19. date
20. ps
